Summary

I am a Full Stack developer with industry experience building websites and web applications. I specialize in .NET and have professional experience working with C# and JavaScript. I also have experience working with jQuery, CSS, HTML, SQL Server and React. I aim to specialize with React + .NET Core stack.

Experience

Full Stack Developer
Globant

May 2021 - Present (10 months +)

- Daily meetings with the Dev Team and Products Owners to report our situation (SCRUM, Jira).
- Maintenance and Development of a platform for the sale of advertising space (React + .NET).
- Unit Testing (Karma, Jasmine, NUnit, SonarQube).
- Work in POD, using Git for our changes and push to ADO respository.
- Comunication with our organization through Slack.

Full Stack Developer
Time Solution Software
